Condition and Defects Please be as specific as possible... does it run? Is it ready to work or needs work to function? Any missing or broken parts? Any recent service?

Overall condition – on a 1-10 scale with 10 being new/mint and 1 being scrap or parts only, what would you rank this machine?

--

Description/Details Please be as specific as possible... Any optional equipment? Any upgrades? Any tooling included? Additional features that would be helpful for a buyer to know?
